Chinese residence within the state, Gov. Pennoyer is known to have positive opinions, and it is rumored that he will propose some scheme for ridding the state of chinese residents.

There are among us some who fear social disorder as a consequence of the governor's anticipated policy, but they for-

get that it is not even in the power of the gover

nor of the state, no matter how mistaken he may be in his judgment to violate the order w ich the great body of our people are determined to enforce. Besides, nobody for a moment expects

the governor will oppose the construction of the proposed railroad bridge across the Willamette

ticipate an interesting contest between the administration and the law-makers.

Of late years the United States senate has oft-

en been called "our house of lords." It is a body, evidently, that deems itself immeasurably

above the people. A'l its tendencies for years have been aristocratic. One of the pretensions

that it clings to is the secret session. It supposes that the people have no business to know their own business. A few days ago a motion

to abolish the secret session was tabled quite

contemptuously, as if the senate scorned a suggestion that might interfere with its patrician assumptions, is the senator a public servant, or is he not? If he is, it is a mere matter of

common sense to assert that a public servant should have no opportunity to cheat his employar by performing his duties under the vall of secrecy. The American representative who is a hammed of his acts or does not want his words

known, is not fit to sit in an American congress.

one who has been forced upon the retired list by active and unscrupulous usurpers of honors of the party, has requested a conference of demourate next month "to discuss the condition of the party throughout the country." The motive upposed to be a mixture of dissatisfaction with the administration and of concern on ac-count of the manifest inability of the party to unite on any policy or course of action that has a definite purpose or meaning. It is said, and very truly, that "the party never was in a more generally split-up condition than to-day. Nobody knows exactly what the assets of the democratic party are. It has a president, or tries to believe it has, but he appears to be a Cleveland man rather than a democrat. It has no policy. It has some offices, but the incumbents are ex-

NOT A PARTY.

The inability of the party to do anything with the tariff question, or any other question, was demonstrated at the last session of congress, and is being demonstrated again. Suppres fons of state sovereignty, as interpreted by itself in old times; vindication of tional authority against these pretentions; successful establishment and operation of bal ing and financial systems on principles which it once so stoutly opposed, and the fact that it long since ceased to be possible to oppress the negro, are among the circumstances, that have thrown are among the circumstances that have thrown the democratic party out of its old relations with effairs. It has not become acquainted with the new conditions, and therefore it don't know what to do. It is not at home in the government, and actually had more force and

Its forces in congress are an ill-associad com-Its forces in congress are an ill-assyrfed com-pany, whose debate is an oppose. This incon-groups and voices all confused." This incon-groups assembly is incapable of legislation; not that it does not contain a good many men of ability, but even its ablest men are inithest from agreement. Mr. Morrison and Mr. Carlisle demand free trade, and Mr. Randall and Mr. McAdoo demand protection. Mr. Handall and Mr. McAdoo demand protection. Mr. Heands and Mr. McAndousenhau of aliver and Mr. Bland speaks for it, Mug-wine approve the civil service afform views of the administration and commend its aliver policy, and democrats bitterly denounce both. No man can make anything of the din. Toe majority in the house of representatives is un por a bankruptcy bill, or a silver bill, or a and the relieve national banks, or any other knowing bill that relates to the general affairs of the geometry. It is behaving not as a party but as an especiation of men whose incongraous and ill-corted ideas make combination impossible.

FIRE SERVICE.

Mr. Ladd, of the committee of fitteen, re-marked, at the last meeting of the committee on Monday, that the Bull Run line would keep down fire expenses; that the city could put in a fire hydrant at every street intersection, and dis pense with one-half the fire engines now re-

But cannot the same resu t be obtained, in a degree, without waiting for water from Buli Run? Pressure direct from the pumps above the city directly upon all the principal mains throughout the city will give strong streams of water at all points except the greater elegations. The Ober-genian is informed that during the past summer the greater part of the: city was supplied with water by direct pressure from the pumps,

want water by urred pressure from the punits, and flat the reservoirs were sittle used.

Again, it may be mentioned that construction of the proposed reservoir or Palatine bill, near the pumping works, will establish a supply of water at an affittede that will give pressure, by gravity, sufficient to throw streams from fire ge in nearly all parts of the city, -certainly n all parts where there is most danger of losses by fire. It is certain that the present water works, with no great additional expense, can be fitted so as to diminish materially the danger from fire and at the same time reduce the cost

higher reservoir will be established than any we have or shall have under the old system; and have the the off spatch, and a better fire service will be possible. Again, the cost of delivering water by gravitation is less than that of delivering it by the force necessarily employed in pumping. Water from Bull Bun can be delivered by gravity at an attitude of nearly 300 freet above the river level in Portland. To cause it to this height, or even to a much less height, by pomping, would involve a considerable and steady-expense. This matter of fire service is

cions ruling. A young man in Nobraska wanted to live; and he inquired of the secretary if he would be permitted to do this, it was newwised that if the young man wanted to marry the ludian girl the secretary wanted to Some days ago Secretary Lamar made a 1947terpose no objections, for it was none of his business; but the young man couldn't settle down on the receivation after he had married her. message to the law-makers.

There is much more than common interest in this message, since it is generally understood that Gov. Pennoyer intends to take several bulls by their horus in a fashion for which there is no recorded, but in a fashion for which there is no by their horus in a fashlon for which there is no precedent, at least, in the recom administrative history of the state. He makes no secret of his purpose to be the executive offler of the state government in a positive sense. Several items of his proposed policy are already matters of common report. He will, it is understood, make immediate and open war against the swamp land thieves who through the complacency or lack of attention of recent administrations, have done the state and many of his individual citizens such gross and serious wrong. It is reported that he will orge the repeal of the whole swamp land legislation and the millification of all acts under it on the nullification of all acts under it on the general ground of fraud. Certainly if he chooses to do so, he will have small difficulty to prove that the scheme was conceived in fraud, perpetuted in fraud and that it has been con-

STOOD BY THE BOY. About 10 cloth yesterdal a morning some hoodlains pushed a boy through a window in a Chinese wash house on First street just above the Two! thester which had just let out. The boy was captured, and one of the Celestials commenced blowing a police whistle vigor ously l'Odiconan banth responded; but before he arrived out the seene a big, burly fellow said to be a butcher, had forced the Chinaman to let the boy go. He boasted over it remarking. No d-d Chinaman can hold a white boy when it maround no matter what he has done and you can arress me it you want to. The officer desibed from doing so for the reason that there was no particular charge he could make, and besides he had not been a wit ness to my part of the transaction.

THE WATER COMMITTEE—IS IT CON STITUTIONAL?

PORTLAND OF DEC 10 1856

PORTLAND OF DEC IT 1880

TO THE EDITION OF THE OREGONIAN

I desire through your columns to call altenti no some phases of the law creating the water committee of this city. I do not wish to wrong any one nor do! know of any one to be wrong any one nor do! know of any one to be wrong any one nor do! know of any one to be wrong any one nor do! know of any one to be wrong any one nor do! know of any one to be wrong any one nor do! know of any one to be wrong all the manating solely from public such of the pillic.

It appears to me that the law in its such of the pillic.

It appears to me that the law in its present form should never have been passed. It is contrary of Aberrean insultwidenessed methods, and! I think I may say that no other such statute carbe found in America unless it was promptly declared unconstitutional. In former times acts of such chases for were common in England and would even new be constitutional there because parliament is the supreme power in the land But in America winds even new be constitutional governments exist an act of the legislature is not diways valle. With its the power of the legislature upon any subject, may be so restricted as to derogate from its otherwy. By every government in America the primarple law of the legislature in or allether that all results in the passed in the primarple law is in the primarple law of the primarple law of the legislature in the law is the primarple law of the primarple law of the law is the primarple of the right of laws that the same the primarple of the right of laws that the same the primarple of the right of laws that the same the primarple of the right of laws that the laws the primarple of the right of the officers outraided. FUNCHAL FELVICES

Functial services of Mrs. Lemma Richards who thed in this city on 5 nday took place yesterday afternoon from the Methodist church. The services were most impressive, while the shounder of cace church, Forthand and Reg Plaswell of that church assisted in the review. A number from that church came over to pay their last tribute of respect to the departed.
